

Partners In Internal Medicine

Covid-19 Precautions

We want you to know about the many precautions we take to ensure our facilities are safe and clean. We are following **CDC Guidelines** and **State of Michigan Executive Orders & Directives**.

Screening for symptoms: All who enter are subject to screenings for cold and flu-like symptoms. If you have an appointment and have a cough or cold symptoms or an elevated temperature, please call before coming in and discuss your symptoms with our triage nurse.

Deep cleaning and disinfecting: Exam rooms are thoroughly cleaned and sanitized between each patient and common areas and high-touch surfaces are cleaned continually throughout the day.

Keeping physical distance: We have arranged reception areas to encourage physical distancing and are limiting the number of patients we see.

Covering up: Patients and visitors are **required** to wear a face covering when entering our office. We ask patients and visitors to bring their own face covering, such as a cloth mask, bandanna or scarf. All staff members are required to wear masks and additional necessary protective equipment.

Visitor restrictions: We are required to limit the amount of people in the office, so we ask that you do not bring unnecessary guests to your appointment.

Thank you for trusting Partners In Internal Medicine for all of your health care needs.
